

PVC FOAM BOARD

Versatile, cost effective, waterproof and anti-bacterial PVC Foam Board for all your interior and exterior projects.

SALVOCORP
SIGNATURE INTERIOR AND EXTERIOR FINISHES

PERAGO[®]
PVC CORE PANELS

As the leading Interior and Exterior Finishing supplier Salvocorp is the proud distributor of Perago PVC Foam Boards.

We are excited to introduce our latest offering as South Africa sees further shortages on certain substrate boards.

This more versatile, cost-effective PVC foam board range is a substitute to traditional wooden substrates such as MDF, chipboard and plywood.

Offering many environmental attributes which makes it the product of choice for many green positioned architects and designers in South Africa.

PVC Foam Boards is ideal for use in many varied industries, these include signage, construction, and the health industry.

PVC Foam sheets are lightweight, durable, and versatile surfaces.

They can be painted and sprayed, printed, laminated, embossed, engraved, or milled, according to customer specifications.

These boards are perfect for cutting, with a two-and-a-half-time better screw retention than any other wood-based boards **these PVC boards are perfect for any joinery work.**

Enjoy the fascinating flexibility of a substrate that offers more advantages than traditional, and more expensive, products.

Perago PVC Boards are waterproof, anti-bacterial, and UV resistant, to name a few benefits.

Furthermore, the Perago range can be specified for applications like ceiling panels, fascia boards, skirting boards, pelmets, shelving, kitchens, dividers as well as external panelling and signage. Also suitable for health and lab specifications. The application options are limitless.

Advantages

**Low water
absorption**

Non-toxic

**High chemical
resistance**

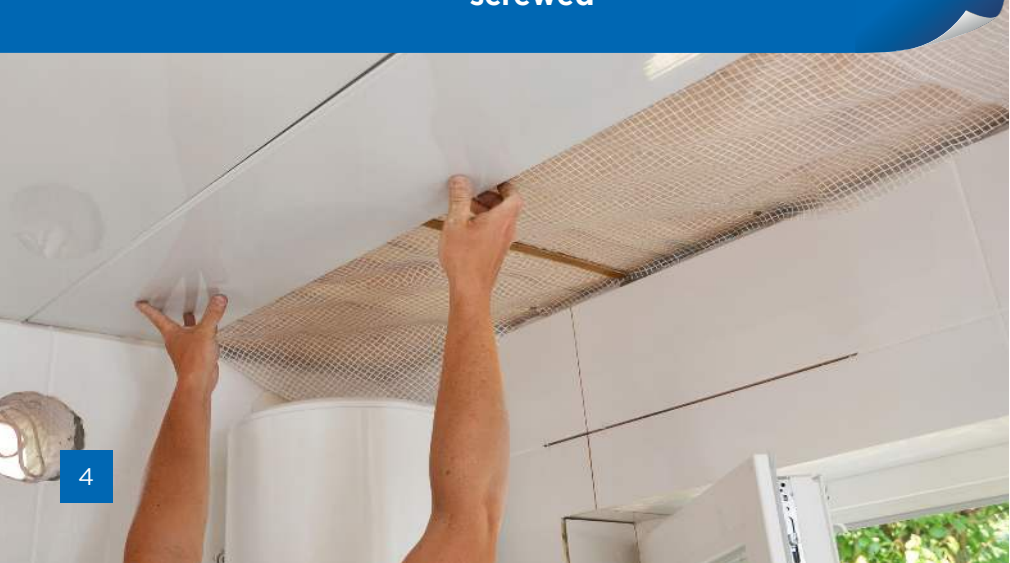

**Low heat
transmission**

**Easily bonded,
vacuum formed,
nailed, and
screwed**

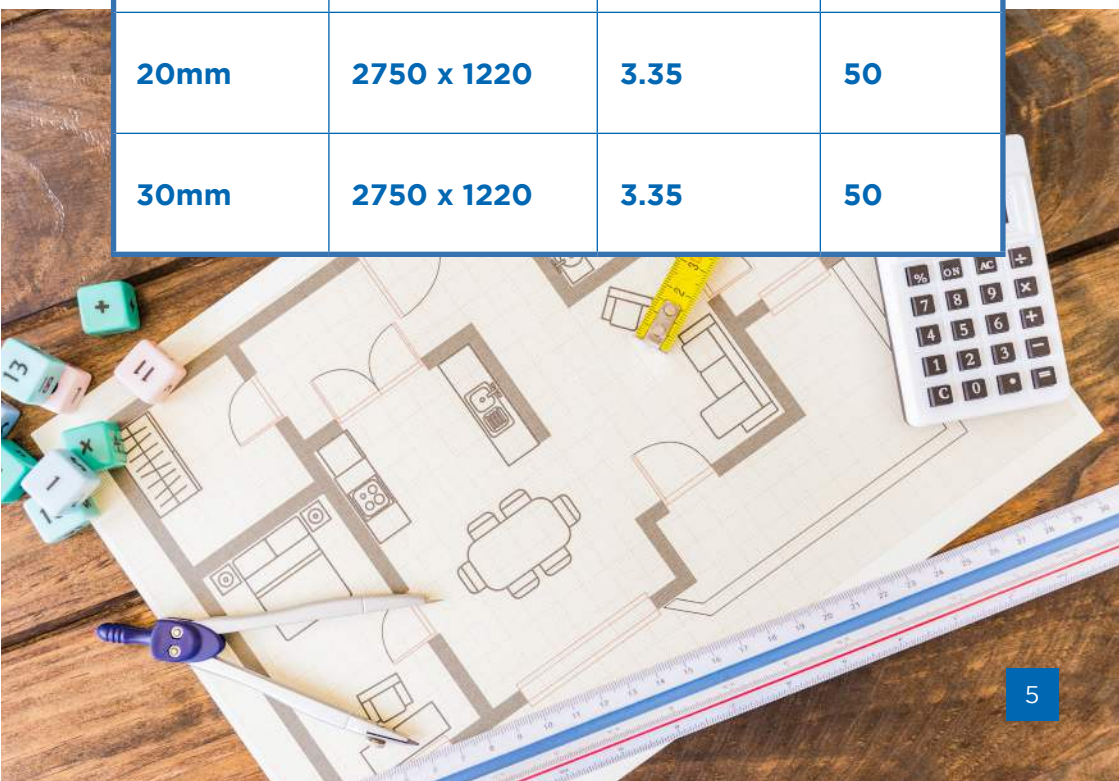

UV resistant

Board sizes:

Thickness (mm)	Sheet Size (mm)	Board m ²	Density
6mm	2750 x 1220	3.35	50
12mm	2750 x 1220	3.35	50
16mm	2750 x 1830	5.03	50
16mm	2750 x 1220	3.35	50
20mm	2750 x 1220	3.35	50
30mm	2750 x 1220	3.35	50

Applications

Our PVC Foamboards can also be painted or sprayed with UV approved coatings and work especially well with polyurethane paint.
